TWO MORE VIRUS CASES REPORTED IN TN
The Tennessee Department of Health has confirmed two additional cases of COVID-19 in Middle Tennessee, bringing the state's number of confirmed cases of coronavirus to six. The patients are adult males. The overall risk to the public remains low as the virus is not currently widespread in Tennessee or the United States. To put things into perspective, there have been over 41,000 cases of the regular seasonal flu in Tennessee this year. Eleven children have died from the regular flu in Tennessee so far. The CDC says each year between 12,000 and 79,000 die nationwide as a result of seasonal flu.
