Botox + Facial Treatments

These two treatments combined leaves you with glowing, youthful skin. In general, Botox lasts 3-4 months. There will certainly be patients in which it lasts longer, in that 4-6 month range, or shorter, in that 2-month range. It is also common for first-timers to notice that it may not last as long initially but may last longer after the second treatment.

Facial Treatments DBL offers:

The Hydrafacial treatment is designed for all skin types. Even the most sensitive skin easily tolerates the Hydrafacial treatment. Your physician or skincare professional may choose specific treatment serums and/or customize the treatment for your unique skin conditions and needs.

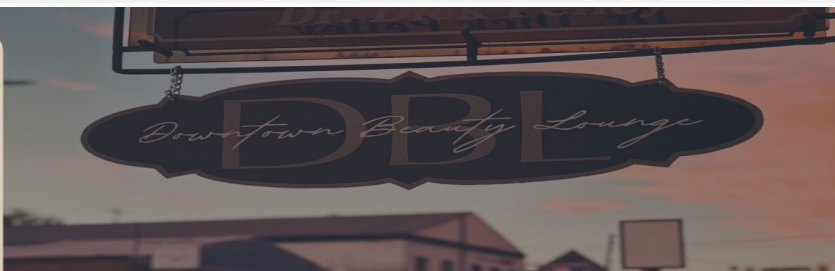

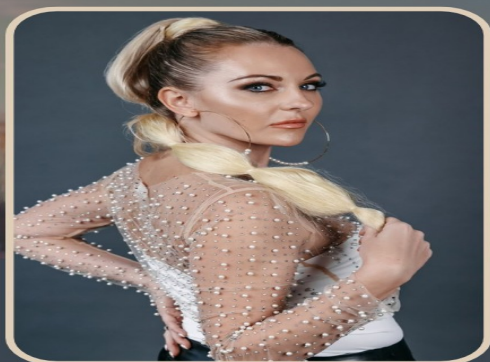

Genco is the only facial technology that triggers a natural oxygenation process within the skin creating the ideal conditions to nourish and transform skin from the inside out.

Are you a candidate for a Genco treatment?

- YES!!! Genco is for EVERYBODY!! With six non-invasive treatments, Genco is a customizable solution for all. Each treatment is formulated with natural, highly effective ingredients to target specific skincare concerns, giving you immediate and long-lasting results with no downtime.

SkinPen Microneedling: As the very first FDA-cleared microneedling device, SkinPen is trusted by leading dermatologists, aestheticians, and other skincare professionals. Three steps in as little as thirty minutes targets facial acne scars and neck wrinkles, for smoother, more radiant, younger-looking skin.
